WOLVES & SHEEP

34 Handcrafted Puzzles from Beginner to Expert · Solutions Included

Alternative Names: Fenced Animals · Hitsuji to Ookami (羊と狼) · Slitherlink: Wolves

How to Play & Rules

- Draw a single continuous closed loop along the grid dots.
- Numbers inside cells indicate how many edges of that cell are part of the loop.
- Animal Separation Rule: Every sheep (🐑) must end up safely inside the loop.
- Every wolf (🐺) must remain stranded outside the loop.
- The loop cannot cross itself, branch, or touch unvisited animal cells inappropriately.

Every puzzle has exactly one valid solution, deducible purely through logical reasoning.

Difficulty Levels (34 Puzzles)

Stage	Grid Sizes	Puzzles
Intro	5×5	3
Easy	5×5 to 6×6	12
Medium	7×7 to 8×8	12
Hard	8×8 to 9×9	10
Expert	9×9 to 10×10	11

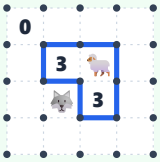
WOLVES & SHEEP — WHAT IS ALLOWED & WHAT IS NOT ALLOWED

Visual guide illustrating correct moves versus rule violations

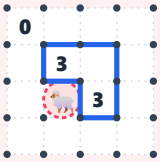
The Animals (Sheep and Wolves)

Every sheep (🐑) must end up inside the closed fence, and every wolf (🐺) must remain outside.



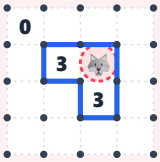
✓ ALLOWED

The sheep is fenced safely inside the loop, and the wolf remains outside.



✗ NOT ALLOWED

A sheep is left outside the fence. Every sheep must be inside the loop.

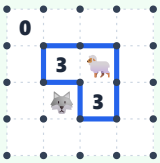


✗ NOT ALLOWED

A wolf is trapped inside the fence. Every wolf must remain outside the loop.

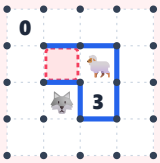
The Loop and Numbers

Draw one continuous closed loop. A number tells how many of its four sides the loop runs along.



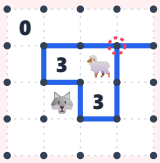
✓ ALLOWED

A single closed loop with no branches, passing along the exact number of sides shown by each clue.



✗ NOT ALLOWED

This number has the wrong count: the cell marked 3 only has 2 sides drawn around it.



✗ NOT ALLOWED

Branching lines: three lines meet at a dot. Lines cannot branch, cross, or leave dead ends.
