Three Views to Solid

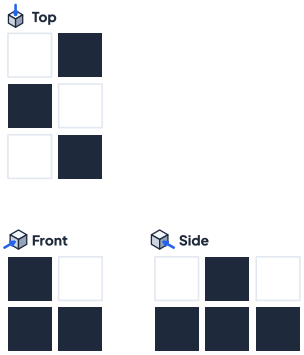

Bands 1, 2, 3, 4, 5 · 10 questions · Free sample

Name _____ Date _____ Score _____ / 10

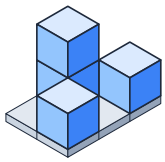

Three flat views of a stack of cubes: from the top, from the front and from the side. The little cube by each name shows where it is seen from: the front view looks at the left-hand face of the drawings, the side view at the right-hand face. A view has a square wherever a cube lies anywhere along that line of sight. Every cube rests on the floor or on another cube. Pick the stack that gives all three views. Circle the letter of your answer.
